

Collateral View™

Revolutionizing Collateral Oversight: Transparency & Control

THE MARKET CHALLENGE

Managing collateral can be a **time-consuming, manual process prone to inefficiencies and risks.**

WHY COLLATERAL VIEW?

✓ **Comprehensive Oversight & Risk Mitigation**

- Ongoing monitoring of collateral positions across multiple counterparties.
- Identifies potential gaps or shortfalls before they are critical issues.

✓ **Scalability & Adaptability**

- Designed to scale with growing counterparties, evolving regulatory requirements, and expanding data inputs.
- Adapts to the unique needs of organization without requiring a complete process overhaul.

✓ **Automated Efficiency & Seamless Integration**

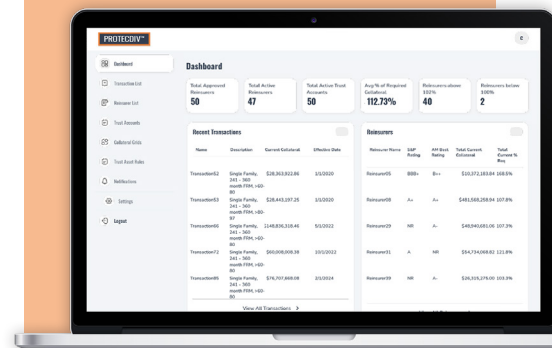

- Eliminates manual data aggregation and reconciliation, reducing errors.
- Syncs with counterparty contracts to ensure up-to-date compliance.
- Reduces the back-and-forth of emails and phone calls with automated tracking.

✓ **Minimized Administrative Burden**

- Automates compliance tracking, reducing risks of counterparty non-compliance, collateral shortfalls, and reporting errors.
- Collateral requirements evolve over time, requiring updates to some or all outstanding collateral. Additionally, new transaction collateral needs may be offset by runoff from older deals.

Gain Full Visibility Across Your Collateral Chain

Managing this complex web of assets manually may no longer be sustainable. Discover how our solution can help you **reduce exposure, improve compliance, and optimize operational efficiency.**
